DID YOU KNOW THAT COMPANIES HAVE A VERY SPECIFIC WAY...

...of identifying themselves to one another and to you as a potential user? One example is the logo of a company, which is kind of a company's 'flag'. Another way is through the use of 'registered trademarks'. This can be anything from a sign to an expression. A very famous company in the fashion world even has a specific color pattern as their registered trademark. Interestingly enough another reason the comic book world must come up with creative names for actual companies is because since their names are registered trademarks they can't be used by anyone else. This leads to some pretty funny replacement names sometimes.

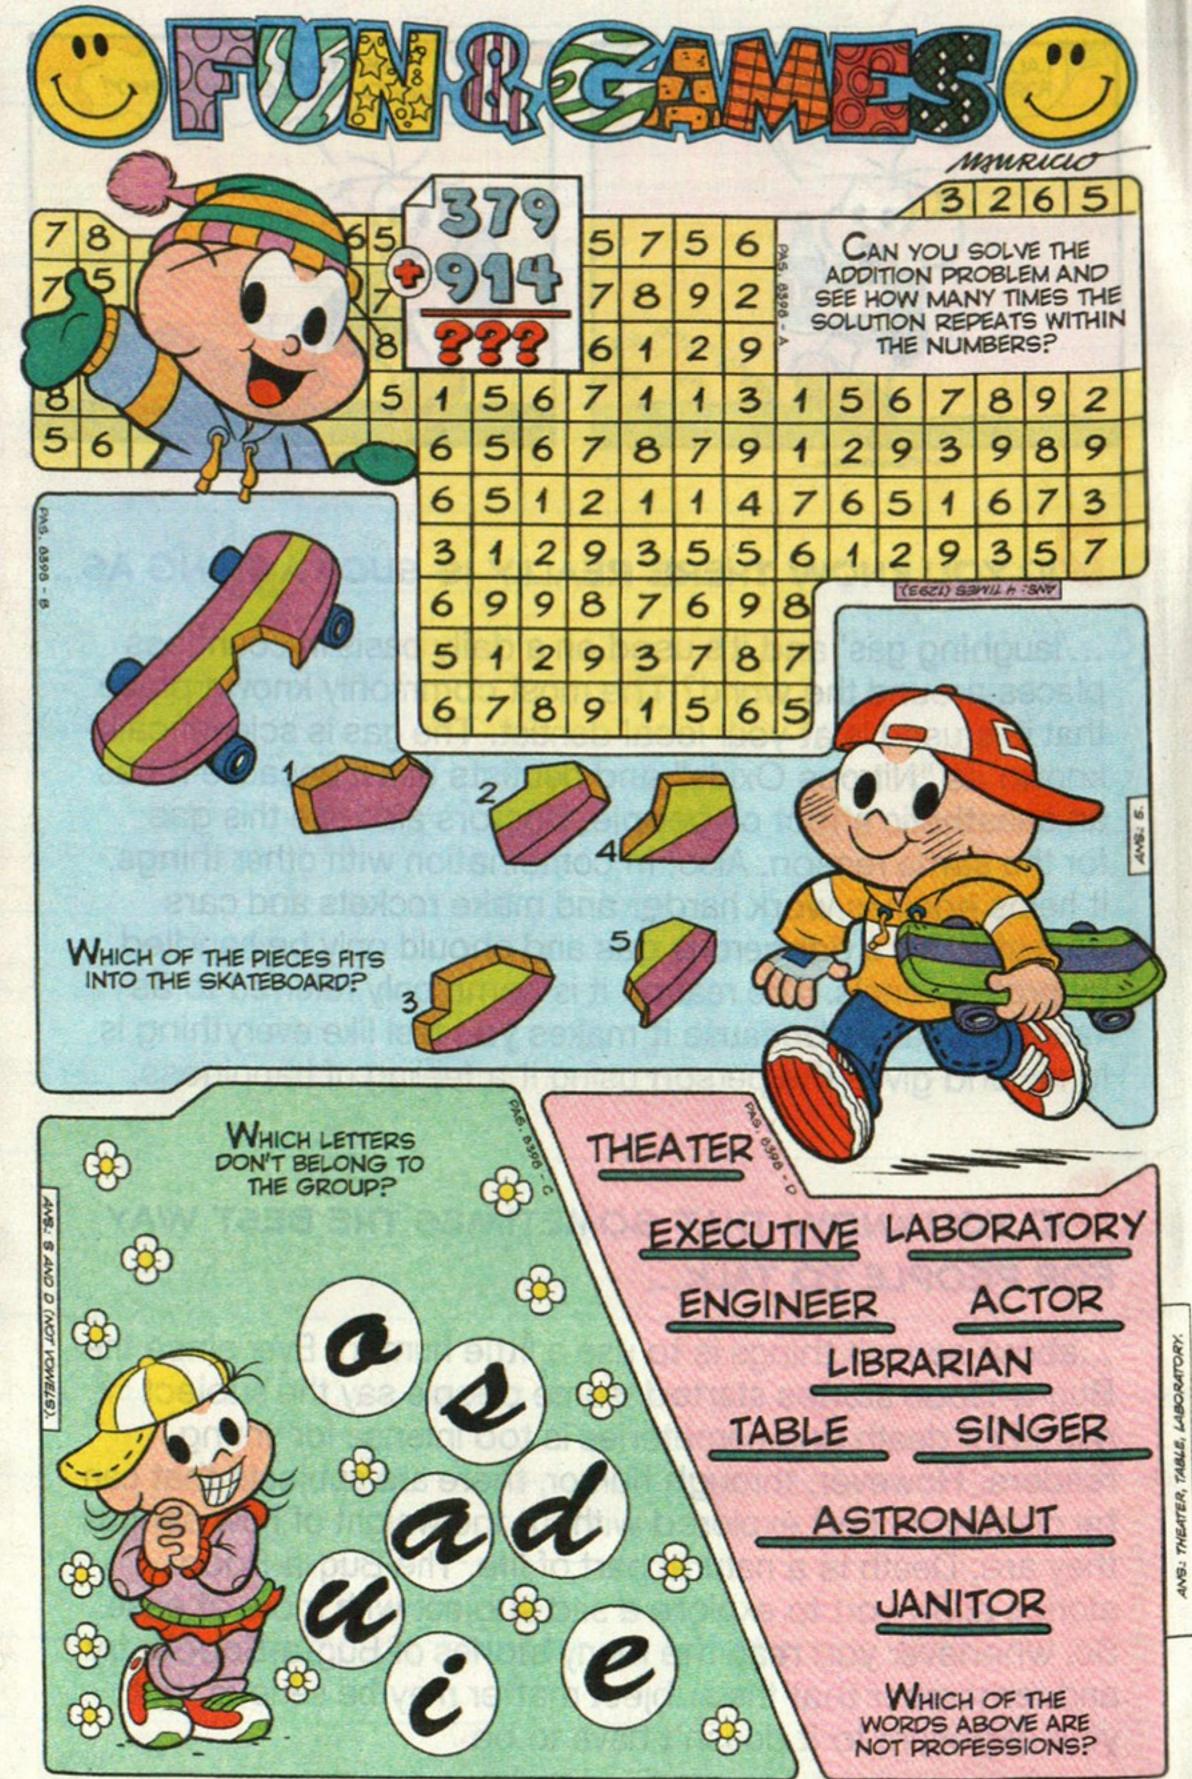

DID YOU KNOW THERE REALLY IS SUCH A THING AS.

... 'laughing gas' and it's used on a daily basis in countless places around the world? The most commonly known place that it is used is at your local dentist. The gas is scientifically known as "Nitrous Oxide" and dentists use it because it has an anesthetic effect on people. Doctors also use this gas for the same reason. Also, in combination with other things, it helps engines work harder and make rockets and cars go faster. It's a dangerous gas and should only be handled by professionals. The reason it is commonly referred to as 'laughing gas' is because it makes you feel like everything is funny and gives the person using it a feeling of happiness.

PID YOU KNOW THAT SOMETIMES THE BEST WAY FOR PEOPLE TO TALK...

...about serious things is to use a little humor? Ever since the Bug-a-Booo stories started, some people say the subject matter of death and cemeteries is too intense for young readers. However, through humor, there are subjects that can be discussed and explored without the weight of how serious they are. Death is a natural part of life. The Bug-a-Booo stories allow you to explore a sad subject with more of ease. So, whenever you read the funny stories of Bug-a-Booo's, try and remember that the subject matter may be serious, but your exposure to it doesn't have to be.
